Eurasia Workshops 2011

The workshops will cover important clinical symptoms and discuss in these interactive sessions - using case examples- differential diagnoses and how to approach and work-up the clinical problems.

Monday	The blue patient <i>G. Wess and B. Schulze</i>	Cardiology and respiratory case management for private practice. We will cover the most important diseases and discuss with the participants the clinical work-up and treatment options!
Tuesday	Effective practice management <i>A. Rawlins</i>	Dr Rawlings is a very successful and progressive practice owner in the UK. He will show new ways how to manage a practice effectively - to increase your income, to have more time for yourself and how to have more fun in your daily work..
Wednesday	The drinking patient <i>R. Dorsch and A. Wehner</i>	PU/PD is a very common clinical problem - Dr Dorsch and Dr. Wehner will cover this area – from kidney disease to endocrinology cases.
Thursday	The drunk patient <i>T. Steinberg</i>	Neurology case presentations and how to solve these cases in private practice. After this seminar you will love neurology ☺
Friday	The itching patient <i>P. Hensel</i>	Dermatology made easy - case presentations and how to solve dermatology cases in private practice
